1/3 STUDY METHOD

Calculate the # of days you have until the exam and split your time evenly between each of these three areas.

1. Conceptual
   This is your opportunity to review all the material for the test!
   - Create a crib sheet.
   - Read/Create a study guide.
   - Make flash cards or concept maps.

2. Fill in the Gaps
   Refine your knowledge and practice/learn the concepts that are most confusing to you.
   - Attend tutoring, OH, and help desk.
   - Study/practice concepts you “hope will not be on the test”.

3. Practice
   Master the material! Apply your knowledge of the concepts by using them in practice.
   - Practice and simulate the exam and testing conditions.
   - Use old exams, homework, and practice problems to master the material.

Notes:
