Tutoring@Clough

In addition to the 1-to-1 Tutoring program, a variety of drop-in tutoring and academic support services are offered almost every weekday in Clough Commons. Tutoring in science, math, computing, and engineering courses (especially freshman and sophomore level) is available on the second floor, and you can receive communications-related assistance (written, oral, visual, or electronic) in the Communication Center on the fourth floor.

For more information, visit www.tutoring.gatech.edu.
Pass and Surpass

Georgia Tech is challenging – that’s one reason you are here: to show yourself and the world that you can meet the demands of a rigorous education. But part of being smart is getting help when you need it to succeed or, better yet, excel.

The Center for Academic Success (CAS) offers services to guide you through your degree, enhance your study habits, and support you in academic areas where you desire personal improvement. In fact, students who take advantage of CAS services enjoy higher than average GPAs, and students who consistently work with CAS tutoring programs earn higher grades than their classmates who don’t seek assistance. Join the thousands of students who use Center for Academic Success services to see how we can help you take your learning to the next level.

Programs

1-to-1 Tutoring

1-to-1 Tutoring is a free, appointment-based program offered to all students. Tutoring is available in more than 70 courses, primarily at the 1000 and 2000 levels. All tutors are successful undergraduates who have received CRLA-certified training provided by Center for Academic Success staff.

Academic Advising

Academic Advising is available from advisors who are committed to helping students succeed academically and personally. They can answer questions about major and minor selection, enrichment opportunities (like study abroad, undergraduate research, and internships), career development, and campus resources. Most academic advising takes place in the schools themselves, but some general academic advising is available at the Clough Commons Core Desk and by staff in the center.

www.advising.gatech.edu

Academic Coaching

Academic Coaching provides students with the chance to work individually with professional staff members to enhance their academic skills, gain confidence, discover motivations, and improve performance. Academic Coaching students usually schedule a one-hour meeting either every two weeks or every month.

Academic Success Workshops

Academic Success Workshops are offered online on topics such as time management, study skills and strategies, exam preparation, and goal setting. Occasional in-person workshops on success skills are available as well. Students, faculty, and staff may also request customized workshops for their courses and organizations.

GT 2100 Seminar on Academic Success

GT 2100 Seminar on Academic Success is designed to help students develop and practice strategies for success at Georgia Tech through the application of learning skills, study habits, and time management techniques. The course is designed for students returning from academic dismissal, but any student may request a permit to register.

Peer-Led Undergraduate Study (PLUS)

Peer-Led Undergraduate Study (PLUS) sessions are designed to help students enrolled in traditionally challenging courses learn in a relaxed, collaborative environment. Participating students review course content, develop learning and study strategies, and prepare for exams. The sessions are regularly scheduled and facilitated by peer leaders who have successfully completed the course as well as participated in CRLA-certified training in the Center for Academic Success.

Pre-Health Advising

Pre-Health Advising is offered for current students and alumni who have an interest in pursuing careers in health care fields such as medicine, dentistry, pharmacy, physician assistant, optometry, public health, and veterinary medicine. Pre-health Advising offers one-to-one meetings, as well as workshops, conferences, mock interviews, invited speakers, and other guidance for students of all majors.

Reboot

Reboot is an academic recovery program for students who are not meeting their own academic expectations. This program gives students an opportunity to improve their academic skills and connect with support resources to achieve academic success.

The Success Summit

The Success Summit helps students, especially those on probation, start the semester with strategies for academic success. This half-day program, held during the first week of classes, offers interactive workshops and panels that promote effective goal-setting, time management, and study skills.

www.success.gatech.edu/success-summit

Tech Prep

Tech Prep is a non-credit, intensive, residential summer program open to all incoming Tech freshmen. Participants review fundamental concepts to prepare for Calculus I and II at Georgia Tech and discover strategies to help them succeed in all their courses.

Students Helping Students Succeed

The Center for Academic Success has opportunities for students to serve as student assistants, tutors, and supplemental instruction (PLUS) leaders. Contact CAS to find out how you can enhance your own education while helping your fellow students achieve their academic goals.
